<b>Warehouse Management, Bar Coding &amp; EDI</b>	Manage multiple warehouses and 3PL's with location-specific inventory quantities, allocations, and costs. Place orders to a central warehouse and redistribute the inventory to your warehouses. Many integrated EDI solutions available.
<b>International Business</b>	Daily rate feeds that automatically compute realized and unrealized gains and losses, perform account revaluations, and complete financial statement translation.
<b>Workflows and Approvals</b>	Create workflow rules and approvals throughout the system based on the order type, vendor, customer, order totals, GL account, gross profit or any transaction specific information.

### CUSTOMER SUCCESS STORIES

HEAR FROM OUR CUSTOMERS

**400% PRODUCTIVITY GAINS**  
 AME Corporation, a mid-sized manufacturer with operations in the US and China, sees 400% productivity gains with Acumatica. Screens open three times faster, navigation time between records is halved, and integration is seamless with online content sharing platform Box.

**CUT PROCESSING TIME BY 35%**  
 Online payment platform provider Payza specializes in e-commerce processing and remittances for more than 9 million members worldwide. With Acumatica, payroll processing time is cut by 35%, intercompany accounting is simplified, and more users were added with no additional licensing costs.

**\$80,000 SAVINGS PER YEAR**  
 P'kolino, a design firm in the US, switched its ERP system from Quickbooks to Acumatica. As a result, the company doubled productivity, saw a 75% reduction in data errors, and saved \$80,000 a year, mainly through the automation of sales orders.
